Forecast for Saturday 05 Dec 2020

Weather: Cloudy with outbreaks of rain, sleet and snow, occasionally heavy overnight with snow gradually becoming more dominant above 450m. Then a cloudy morning with sleet and snow slowly clearing southwards with sunny spells developing for the afternoon.

Chance of cloud free mountain/hill tops above 600m: Close to zero through the morning with periods or persistent cloud above 450m with patches below becoming close to 100% in the west by early afternoon as cloud lifts and breaks, but nearer 75% in the east with just occasional cloud above 600m at times

Visibility: Good falling to just a few kilometres in rain, sleet and snow, and perhaps less than a kilometre in any heavier snow, becoming very good by early afternoon.
